EDUCATION

B S Abdur Rahman Crescent Institute of Science and Technology

Chennai, Tamil Nadu

CGPA: 8.76

2024 – 2028

EXPERIENCE

Saveetha 24-Hour National Hackathon

Top 60 Finalist
2026

- Selected among the Top 60 teams from over 4000+ participating teams nationwide.
- Developed Verifixa, an AI-powered KYC Verification Platform featuring OCR-based document verification, face recognition, OTP authentication, trust score generation.
- Collaborated in a high-pressure environment to design, develop, and present a functional full-stack solution within 24 hours.

Cloud Computing Intern

8Queens Software Technologies Pvt. Ltd. | Chennai
June 2026 – July 2026

Completed a one-month internship in Cloud Computing, gaining hands-on experience with cloud infrastructure and deployment concepts. Learned cloud services, virtual machines, storage, networking, security, and best practices for managing cloud resources. Worked on AWS Cloud fundamentals, including compute, storage, networking, and cloud architecture concepts. Gained practical exposure to deploying and managing cloud-based applications in a real-world environment.

PROJECTS

GrievancePilot – AI-Powered Grievance Redressal Platform | React.js, Node.js, Express.js, MongoDB, n8n:

- Developed an AI-powered multilingual grievance management platform to automate complaint submission, analysis, prioritization, department routing, and resolution tracking.
- Implemented automated grievance workflows using n8n for complaint processing, categorization, severity/urgency analysis, department assignment, notifications, and AI-assisted response generation.
- Built responsive citizen and officer dashboards with real-time complaint tracking, status monitoring, resolution proof, and grievance analytics to improve transparency and operational efficiency.

AI-Powered KYC Verification Platform | React, Node.js, MongoDB, OCR, Face Recognition:

- Developed a secure digital KYC verification platform to streamline identity validation and onboarding processes.
- Implemented OCR-based document verification, OTP authentication, face recognition, and AI-powered trust score generation.
- Designed a consent-based verification workflow to enhance security, reduce fraud, and improve user experience.
- Finalist – Saveetha 24-Hour National Hackathon (Top 60 among 4000+ participating teams).

Smart Waste Management System | React, TypeScript, MongoDB:

- Built a waste tracking and monitoring platform to improve collection efficiency and operational management.
- Implemented real-time data visualization dashboards and analytics for monitoring waste collection activities.
- Developed responsive interfaces and reporting features to support data-driven decision-making.

TECHINICAL SKILLS

CERTIFICATES

- Languages:** Java, Python, C++, Go, TypeScript, JavaScript
 - Frontend & Mobile:** React.js, React Native, Next.js, Tailwind CSS
 - Backend & APIs:** Node.js, Express.js, FastAPI, REST APIs
 - Databases & Vector Stores:** PostgreSQL, MongoDB, MariaDB, Supabase
 - AI & Automation:** n8n, LangChain, NLP, OCR, Face Recognition
 - Data & Analytics:** Power BI, Pandas, NumPy
 - Cloud & DevOps:** AWS, Git, GitHub, GitHub Actions, Docker
 - Developer Tools:** Postman, VS Code, Jupyter Notebook
- IBM Generative AI Professional Certificate – Coursera
 - Cisco Intro to Cybersecurity
 - Deloitte Data Analytics Job Simulation
 - IBM SkillBuild Web Development Fundamentals
 - RDBMS PostgreSQL Training – EduPyramids, SINE, IIT Bombay
 - Linux Training – EduPyramids, SINE, IIT Bombay
 - Python Training – EduPyramids, SINE, IIT Bombay

ACHIVEMENTS

- 3rd Place** – TechFusion '26 National Level Project Expo, organized by B.S. Abdur Rahman Crescent Institute of Science & Technology (2026).
- 2nd Place** – Farmer E-Commerce Website Project Expo, recognized for developing a multilingual platform enabling direct farmer-to-customer sales and reducing intermediary involvement (2026).
- Finalist** – **GDG Hackathon**, organized by Google Developer Groups (GDG) Coimbatore, for developing GrievancePilot, an AI-powered grievance redressal platform (2026).
- Bharat Build Hackathon SRM 2026** – Developed and presented a Doctor Appointment Booking System, demonstrating teamwork, problem-solving, and project-pitching skills.
